General Advice

Consult a physician. Show this safety data sheet to the doctor in attendance. Move out of dangerous area.

If Swallowed

Call hospital emergency room, or physician immediately. Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician.

If Inhaled

If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.

In Case of Skin Contact

Wash off with soap and plenty of water. Take victim immediately to hospital. Consult a physician.

In Case of Eye Contact

Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician.

Most Important Symptoms (Acute and Delayed)

Upon excessive exposure (inhalation, dermal contact, contact with eyes, ingestion), acute/delayed symptoms may include but are not limited to dizziness, nausea, fatigue, blurred vision, loss of motor skills, confusion, impaired judgement, and other common symptoms of inebriation typically associated with exposure to ethyl alcohol. Any individual exhibiting signs of these symptoms should seek immediate medical attention in accordance with the guidelines presented in Section 2 (HAZARDS IDENTIFICATION) and Section 4 (FIRST AID MEASURES) of this document.

Immediate Medical Attention Required

IF SWALLOWED: Immediately call a doctor/ physician IF exposed: Call a doctor/ physician

Refer to Section 2 (HAZARDS IDENTIFICATION) and Section 4 (FIRST AID MEASURES) of this document for additional information.

5. FIREFIGHTING MEASURES

Conditions of Flammability

Flammable in the presence of a source of ignition when the temperature is above the flash point. Keep away from heat/sparks/open flame/hot surface. No smoking.

Suitable Extinguishing Media

Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

Special Protective Equipment for Firefighters

Wear self-contained breathing apparatus for fire-fighting if necessary.

Hazardous Combustion Products

Hazardous decomposition products formed under fire conditions. – Carbon oxides. **Further Information**

Use water spray to cool unopened containers.

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions

Wear respiratory protection. Avoid breathing vapors, mist or gas. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low areas.

Environmental Precautions

Prevent further leakage or spillage if safe to do so. Do not let product enter drains.

Methods and Materials for Containment and Cleaning Up

Contain spillage, and then collect with an electrically protected vacuum cleaner or by wet-brushing and place in container for disposal according to local regulations (see section 13).

7. HANDLING AND STORAGE

Precautions for Safe Handling

Avoid contact with skin and eyes. Avoid inhalation of vapor or mist. Use explosion-proof equipment. Keep away from sources of ignition – No smoking. Take measures to prevent the build-up of electrostatic charge.

Conditions for Safe Storage

Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage.

Appropriate Engineering Controls

To eliminate or reduce exposure to potential chemical and/or physical hazards while using this material, do NOT use/handle/store/transport/dispose/transfer material in any other way other than as specified in either this document or the corresponding Technical Data Sheet for Arisfor® Multi-Surface Waterproofer. Always use non-sparking materials when using/handling/storing/transporting/disposing/transferring material. Always store material in a tightly-sealed appropriate/approved storage vessel and properly stowed away in an approved fire-/flameresistant storage area.

Personal Protective Equipment

Respiratory Protection

Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with multipurpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

Hand Protection

Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands. **Eye Protection**

Face shield and safety glasses Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

Skin and Body Protection

Complete suit protecting against chemicals, flame retardant antistatic protective clothing. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

Hygiene Measures

Avoid contact with skin, eyes and clothing. Wash hands before breaks and immediately after handling the product.
